WHY IT MATTERS

GiveCentral is a nonprofit management multiplatform that makes it easier for donors to give, nonprofits to communicate, and administrators to manage records. All this can be done intuitively and on any device. Customizable, cost-effective, and versatile, GiveCentral enhances the fundraising experience for donors and nonprofits alike.

GiveCentral was very easy to implement, and we have had a great response to the electronic giving option. The website is easy to navigate, and the information for users is clear and concise.
