Family Tags

Family Tags will display contact information for the family.

The report will list the family tags you have setup in Gabriel. It will allow you to select multiple tags in one report.

Parishes have used this report to determine if the families that were in last years Religious Education program are in this upcoming Religious Education year. This report gave the RE staff the opportunity to reach out to families who may not have registered for Religious Education.

You will find the Family Tags report under the Families section in the Report Library.
